HIGHLY IMPORTANT DISCOVERY.

Fonsel's Pabulum Vitæ
Has now gained its position before the public as
THE ONLY REMEDY
yet discovered for the speedy relief and permanent cure of
CONSUMPTION,
Coughs, Colds, Hoarseness, Bronchitis, and all other Pulmonary Complaints.

The discovery of an eminent French Physician after many years of study and observation, it contains the most
ASTONISHING SUCCESS
in the treatment of the above complaints.

Its universal popularity, numerous certificates of remarkable cures, the recommendation of some of our most eminent physicians, and the analysis of Dr. A. A. Hayes, the State Assayer, all give it a rank and praise of

THE UNRIVALLED VIRTUES
And Unqualified Superiority

of this preparation to any other remedy now extant and are constantly contributing to give it a wider and more extensive reputation. From its volatile nature it affords vapors freely, and consequently it is more intense in its ACTION UPON THE LUNGS AND AIR PASSAGES.

The discredit which has been thrown upon all preparations not prescribed by regular physicians by reason of the recklessness with which worthless and injurious compounds have been imposed upon the public, will tend to deter many from availing themselves of the benefits of this preparation, the great however, assures the public in all sincerity that this medicine is not only perfectly safe, and free from all other deleterious ingredients, but guarantees that it will effect all that it represents not having heard of a single case where it has failed to give satisfaction.

It is warranted to cure
Consumption by using One to Six Bottles;
Bronchitis by using One to Three Bottles;
Colds by using less than One Bottle;
Coughs by using it Two to Six Days;
Bleeding of the Lungs by using less than One Bottle;
Hoarseness by using less than One Bottle;
Soreness of the Chest by using less that One Bottle.

Price $3 per bottle, accompanied by a Treatise.

Scientific American.

PROSPECTUS.
Volume Fourteen.
BEGINS SEPTEMBER 11, 1858.

MECHANICS, INVENTORS, MANUFACTURERS AND FARMERS.

THE SCIENTIFIC AMERICAN has now reached its Fourteenth Year, and will enter upon a new Volume on the 11th of September. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union. It is not, as some might suppose from its title, a dry, abstruse work on technical science; on the contrary it so deals with the great events going on in the scientific, mechanical, and industrial worlds, as to please and instruct every one. If the Mechanic or Artizan wishes to know the best machine in use, or how to make any substance employed in his business—if the Housewife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on in the way of improvements—if the Manufacturer wishes to keep posted with the times, and to employ the best facilities in his business—if the Man of Leisure and Study wishes to keep himself familiar with the progress made in the chemical laboratory, or in the construction of telegraphs, steamships, railroads, reapers, mowers, and a thousand other appliances, both of peace and war—all these desiderata can be found in the Scientific American, and not elsewhere. They are here presented in a reliable and interesting form, adapted to the comprehension of minds unlearned in the higher branches of science and art.

TERMS—One Copy, One year, $2.00; One Copy, Six Months, $1; Five Copies, Six Months, $4; Ten Copies, Six Months, $8; Ten Copies, Twelve Months, $15; Fifteen Copies, 12 Months, $22; Twenty Copies, Twelve Months, $28, in advance.

Specimen copies sent gratuitously for inspection. Southern and Western money, or Postage Stamps, taken for subscriptions. Letters should be directed to

128 Fulton Street, New York.

Messrs. MUNN & Co. are extensively engaged in procuring patents for new inventions, and will advise inventors, without charge, in regard to the novelty of their improvements. aug24

RAT EXTERMINATOR!
Well Insure. Permanent Relief.

It acts upon a Rat like a Terror.
They cannot stay and breathe where it is—and they never return to the place where it has been used.

Whig and Courier.

Senator Fessenden, of Maine.

The sweeping victory which the Republican party have achieved in Maine, will enable them to elect a Republican ... Senator for the term commencing the 4th of March next. Whether the present incumbent, William P. Fessenden, shall be chosen, or whether another shall succeed him, we have no positive means of determining, but we assume that the Senator's career must have secured him the confidence and admiration of his constituents, as it has won for him a national reputation for ability, purity and firmness, ... the claims of the most shining members of the Senate to those lofty attributes. We therefore infer that the confidence reposed in him at any early day by the opponents of slavery extension must have increased, and that the trust confided in him will not be withdrawn. We deprecate the indiscriminate or frequent laudation of public men, but we hold it to be a duty of the press to manifest a just appreciation of the character and services of those who distinguish themselves in the councils of the nation for statesmanship and patriotism. A Senator is only responsible to his State, but his voice and vote may be potential in moulding legislation and influencing the career of the nation, and the press of the other States may therefore properly canvass his conduct, and award it the meed of praise or blame to which it is entitled. Now that Mr. Fessenden's present term is drawing to a close, we deem it our duty to bear testimony to the manner in which he has performed his Senatorial duties. Last winter we did not hesitate to criticise severely certain expressions which he dropped in debate, and which reached us in the form of a telegraphic despatch. We are frank enough to ... [illegible] ... Senator Fessenden is a true believer in, and a more effective advocate of that doctrine than the leaders of the ... nationalized, sectionalized, corrupted national Democratic party ... [illegible]

Lamartine's Pilgrimage to the Holy Land.

Another "Great Event of the Age."—A genius out west by the name of Harlow Weed Brown, is dividing the honors of a grateful country with Cyrus W. Field and Mr. Everett. He writes thus in regard to the successful hanging of a gate, the effect of which upon society, he states, will be vastly more beneficial than all the telegraph cables ever laid.

"On the 31st the sun rose in the east, and went on the even tenor of its way. The hinges were not completed until 2 p. m. Precisely at 5 o'clock we commenced operations, the posts having been already set. The hinges worked to a charm, and at 6 o'clock the gate was raised to its place. It looked majestic and swung magnificently. At twenty minutes past 6 o'clock we elevated our hats into the air, shot a gopher with two charges, and wrote ...

tled a Te Deum to the tune of Yankee Doodle.

The other post was then set, and, at 6 o'clock the connection was complete, and signals came through from post to post with remarkable distinctness. With brow bared and locks flowing, we swung it through back and forward—thus proving to those who believed not in the reality of the event, and its capacity to take such messages through. The gate is a triumph. It will be a bond of union between the two fences, a sure thing against hogs, and a greater evangelizer of those who go through.

It hangs on "easy simplicity," and has already elicited the most vociferous approbation. While the Atlantic Cable binds continents together, our gate binds the fence in one unbroken string, fraternizing the two in one. At the first swing of the gate we forwarded a message to President Buchanan:

'*Dear Buchanan*—We've got a gate. It is national in its arrangement. It knows no north, no south, no east, no west, but swings all around. Fetch over the children and have a swing.'"

For the Aroostook.

Quite a large number of the editors of the principal newspapers in this State left the city this morning for Aroostook, with a view to examining the country and ascertaining if it is really as fertile and as pleasant as it is represented to be by its friends. They have selected this time for the tour, that they may be present at the Cattle Show and Fair to be held at Presque Isle on Wednesday and Thursday of this week, and thus see specimens of the neat cattle, horses, sheep, swine, farm products, &c. &c., from all parts of the county, without personally visiting each town. We are glad to see so large a number avail themselves of the opportunity presented, as we feel confident that as fast as the vast resources of Aroostook are appreciated, just so fast we shall see a growing anxiety on the part of the people to develope and open up the country, and thus encourage our hardy and enterprising young men to seek homes there, instead of in the far West or California, as has been the case for the last few years.

Among them we noticed the following gentlemen, and the party will undoubtedly be joined by others:

J. C. Fletcher, Portland Advertiser,
John M Adams, Portland Argus,
John A Poor, Portland State of Maine,
E H Elwell, Portland Transcript,
Charles A Lord, Christian Mirror,
Brown Thurston, Zion's Advocate,
Darius Forbes, Temperance Journal,
Louis O Cowan, Biddeford Union,
Daniel T Pike, Augusta Age,
J W Hanson, Gospel Banner,
J Q A Hawes, Ken Journal, Augusta,
E Rowell, Hallowell Gazette,
James M Lincoln, Bath Sentinel,
J O Gilman, Bath Times,
A G Tenney, Brunswick Telegraph,
Nelson Dingley, Jr., Maine Evangelist, Lewiston,
Frank L Dingley, Lewiston Falls Journal,
J D Stetson, Dem Advocate, Lewiston,
W H Waldron, Morning Star,
W B Lapham, Oxford Democrat,
Z P Vose, Rockland Gazette,
F H Chapman, Rockland Democrat,
E K Smart, New County Advocate, Camden,
Wm Dyer, Eastern Mail, Waterville,
Charles H Paine, Thomaston Advertiser,

Several gentlemen from this city accompanied the party, and we have no doubt that the trip will be a pleasant one, and productive of an incalculable amount of good, in bringing the immense advantages of this country before the people in other parts of the State.

The Austria.

It is suggested that the captain of the Austria was accidentally pushed overboard by the terror stricken passengers while in the act of lowering one of the life boats, and that he was endeavoring at the time to prevent their crowding into it. He has always, it is said, borne a high reputation for presence of mind in danger. It is supposed that Dr. Lowe and wife, of Calbe, are among the lost by the Austria, the doctor having sent letters to his friends signifying his intention of sailing in the Austria. The Hungarian gentleman who, as Mr. Brew states, made his wife jump in, then blessed his six eldest children, made them jump in one after the other, and followed them with an infant in his own arms,' was Adolphus Hermann of Igelo.

The chief engineer of the Austria Von Mergenstern, is said to have been a man of liberal education and an accomplished engineer. Upon the previous trip he brought over his beautiful young bride upon a wedding tour, and she returned home with him on the last outward trip. He was connected by family with the nobility of Germany, and was about 30 years of age.

The Latest Demand.

A positive Legislative enactment—a civil and criminal code, for the protection of slave property in the Territories. [Southern papers.

The Democracy endorse Buchanan's doctrine that slavery keeps even pace with the Constitution. He has declared, in so many words, that slavery has as legal an existence in Kansas as in South Carolina. As it has thus, according to this high authority, the right to *go* there, the South, thus encouraged, demand "a civil and criminal code" to "protect" it after it gets there.—*Port. Adv.*

The dismasted schr picked up by the wrecking schr Malcom, off Scituate, was the Edward D Peters, from Jonesport for Boston, and not the Gen Jackson, as before reported.

BOY KILLED. On Saturday afternoon a little boy named William Henry Leighton, aged seven years, was instantly killed by the falling of a tree upon him in the woods at the end of Third Street. A party of boys were falling trees for sport, and one by a flaw of wind was taken in the wrong direction and fell upon the little boy, breaking his neck and killing him instantly. The father of the little boy moved to the city recently from Belfast.

We learn that James Limeburner, of Brooksville, one of the crew taken from schooner J. W. Hale, before noticed as being wrecked on her passage from Jacksonville, Fla., to New York, in the gale of the 15th ult., has since died—from injuries and exhaustion at that time.

FATAL ACCIDENT. We learn from Mr G W Hammatt, that on Friday last, as the morning train from Portland was crossing the road at North Berwick, a wagon in which Mrs Nason, an aged lady, was riding, was struck by the locomotive, in consequence of the horse taking fright, and Mrs N. was thrown out with such force as to break her neck, causing immediate death. She was going with one of her daughters to visit another daughter who is sick.—The younger lady who was in the wagon was not materially injured.

The Penobscot river steamers re-commenced their regular trips from Oldtown to Mattawamkeag this morning. The water has been so low that they have been unable to run for some time past.

We learn from Augusta that Dickey lacks twenty four votes of an election in Aroostook.

At the Firemen's Annual Drill in Portland on Thursday, "Dirigo," No 3, built by Crockett, of Portland, played 176 feet 4 inches, thro' 400 feet of hose, and took the prize trumpet. The playing was as follows:

Private letters from New Orleans represent the yellow fever to be extremely malignant, and advise strangers against going there until very late in the season—say 1st December—certainly not before the middle of November.

The Boston Transcript says: "The partially decayed corpse taken from the water near the House of Correction wharf, South Boston, has been identified as that of Benjamin F. Griffin, the mate of the brig Joseph Park, of Searsport, who fell overboard in the harbor some ten days since, while endeavoring to get his vessel clear from another."

SHORTEST TIME ON RECORD. The clipper ship Golden Eagle, Capt Harding, arrived at Honolulu July 27th, twelve days from San Francisco, bringing dates of June 21 from New York and June 8 from London. It is said to be the shortest time ever made between the United States and the Sandwich Islands.

SUICIDE. A lamentable occurrence took place Sunday evening in Berwick. Miss Lizzie Hodgson, an interesting young lady of 18 years, committed suicide by throwing herself into the river. Her parents reside in Berwick, and are very respectable people. No cause was assigned for the act.

SERIOUS ACCIDENT. Yesterday forenoon Mr Thomas Bloom, who resides in the north end of the city, was gathering fruit from a tree, standing on a ladder about twelve feet from the ground. By some accidental misstep he lost his hold and fell, striking his abdomen against a picket fence. The pickets did not penetrate the cavity of the abdomen, but produced a severe abrasion, and internal injuries, the extent and result of which it is as yet impossible to determine.—*Bath Times.*

DEATH BY DROWNING. A despatch received on Wednesday last, announced the death, by drowning, of George B. Rawson, M. D., of New Portland. He was found in a pond, some distance from the village, where he had been, apparently but a few hours. Nothing is at present known as to the manner in which the accident occurred. Dr. Rawson was a native of Paris, and was 43 years of age.—*Paris Democrat.*

SHIPBUILDING IN MAINE. Capt. Wm. A. Ellis, who has just returned from a tour to the Maine ship yards, furnishes the New York Journal of Commerce, with the following list of vessels building in that State, which will nearly all be launched this fall:

In the District of Bath—Eight ships, averaging 600 tons each. Some of them are of 1000 tons.

At Bangor—One ship of 800 tons, for the San Francisco trade. Expected to sail for that port in about a month.

At Cherryfield—Two double decked barques of 500 tons each.

At Machias—Three small vessels of about 300 tons each.

At Calais—One vessel of about 300 tons.

At Frankfort—A double decked brig of about 400 tons—nearly ready.

MAD BOYS. On Sunday forenoon, (26th,) Wesley Potter and Henry Tarbox, boys about 17 years old, made away with a horse and chaise belonging to F. Allen, Esq., which had been left near the Episcopal Church. They were tracked to Lewiston, and the team was found in that vicinity on Tuesday. The boys have both been in the State Reform School.—We are not informed whether they were apprehended with the team or not.—*Gardiner Journal.*

THE EASTERN FISHERIES. The St. Croix Herald says that the fisheries in the Passamaquoddy and vicinity will this season prove more than ordinarily successful. For the last two months the catch was immense, and the fishermen belonging to the several islands have been doing a thriving business. Near Campobello, their average catch for several weeks exceeded 1000 quintals a day.

Mr. Reis Lincoln, of Dennysville, lost a valuable bull of the Devon breed last week. The bull was turned into the field and ate too freely of second crop clover.—*Eastport Sentinel.*

IMPROVEMENT. Gen. Samuel Veazie of Bangor has purchased the brick store belonging to the estate of the late Thomas Robinson, Esq., and has commenced repairing and putting it in fine order for occupation.—*Ellsworth American.*

A despatch from New Orleans to the owners of the Emily Augusta, says the Bath Tribune, announces the death by yellow fever of Capt. Lorenzo Parker, of Bath, on the 27th inst.

ANNIVERSARY OF LEWISTON LIGHT INFANTRY. The third anniversary of the Lewiston Infantry will be celebrated Oct. 19th, by an excursion to Bangor, Rockland and Portland. The company, mustering forty guns, will leave Lewiston Thursday, Oct. 19th, for Bangor; from Bangor they will go to Rockland; from Rockland to Portland; and thence return home—the excursion occupying three days.—A corps of three drummers, from Boston, have been engaged to attend the company, thus making the music a rare feature.—*Lewiston Falls Journal.*

A correspondent of the Portland Advertiser says Dr. Holmes of the Maine Farmer is a good judge of a turkey, whether in the barnyard or on the dinner table.

A little daughter of Thomas Tracy of Clinton was drowned on Thursday, near the point where the canal runs into the river. Her grandfather, who was working close by, suddenly missed her, and on looking about discovered her dead body floating down stream.

We clip the following from the Pensacola Era:—

"On the 14th inst., Mr. J. D. Sullivan, while walking the quarter-deck of the schooner R. H. Moulton, fell overboard; and although every effort was made to rescue him, it was all in vain. He was never seen to rise. Mr. S. was a native of Bangor, Maine, and in the employ of Mr. Albert Grinnell."

Items of All Sorts.

A "thrasher" of quite large size was captured in some mackerel nets off Nahant one day last week. This species of fish is seldom taken on our coast. He was stuffed, and is now in possession of Prof. Agassiz, at Cambridge. The thrasher is one of the most effective enemies of the whale, usually acting in conjunction with the sword fish.

The Detroit Advertiser relates that a little girl about two years of age, who had crawled upon the track of the Detroit and Toledo Railroad at Trenton, was saved from destruction by an approaching train, by a dog, a playmate of the child, which caught the child by its dress and dragged it from the track into the ditch, where it held it until the train passed by!

The Charleston, S. C., papers announce the death of the venerable Rev. Reuben Post of that city. Dr. Post was a native of Vermont.

The Providence Post says James Allen made a fine ascension in a balloon from Norwich last week. His wife accompanied him, and they remained in the air about half an hour, travelling about eleven miles.

The English papers state that a deputation from the Great Eastern Steamship Company had visited Bristol with a view of ascertaining the capacity of that port for accommodating their mammoth vessel, it having been found that Liverpool and Southampton would be unsuited.

The French commandant having prohibited the further right of fishing in the bay of St. George to British subjects, the Governor of St. Johns has sent two war vessels to see about it, and has directed the inhabitants along the coast of Newfoundland to report to the officers any interference in their fisheries.

The Postmaster-General has ordered that "supplements" or "extras" folded within regular issues of daily and weekly journals—not actual and bona fide editions of such publications, conveying intelligence of passing events and general intelligence—subject the whole package to letter postage.

The efforts which Russia has lately made to increase her Navy are attracting attention in Europe. These efforts are so considerable that her own building yards are not sufficient for the purpose, and she has been having vessels built in England, France and America, under the superintendence of her own naval officers. The Baltic fleet numbers twenty-seven ships of the line, and several smaller vessels, without counting gun boats. Her flotilla in the Caspian sea has been increased, and is creating a respectable naval force in Eastern Siberia, and at the mouth of the river Amoor.

Letters from Central America state that cotton planting is attracting considerable attention there. Samples of some grown have been favorably classed by the English judges, and the Manchester Cotton Supply Association are distributing a considerable quantity of seed throughout Central America.

The latest intelligence from Victoria contains a statistical return of no little interest to ladies. By the last return of the register general of the colony we perceive that the numerical preponderance of men over women amounted to the astounding sum of 134,000 in a population of 470,000. In other words, there were only about 168,000 women to 302,000 men.

We can imagine no greater breach of Senatorial dignity, and no practice more flagrantly at war with the genius of our government, than the one pursued in Illinois of a stump canvassing for the Senate of the United States.—*Washington Union.*

We wonder if it is much more at war with the genius of our government that the Illinois candidates for the Senate should take to the stump in that State for themselves, than that the Vice President of the United States should go there and take the stump for or against them, and that the President himself should continually wield the pen and guillotine to decide the battle.—*Louisville Journal.*

POLITICAL.—*Philadelphia, Oct. 1.*—Garnett B Adrian has been re-nominated by the anti-Lecomptonites of the 3d Congressional district of New Jersey. Patterson is the Lecompton candidate.

BOSTON, Oct. 1.—The Republican Convention, sixth district, this afternoon nominated John B Alley for Congress. At the six ballotings, Mr Alley received 67 votes to 42 for Timothy Davis, late Representative from that district.

A FORSAKEN VALLEY. A singular discovery has lately been made near Batten, in Java, of a poisoned valley. Mr. Alexander Loudon visited it last July, and we extract a paragraph from a communication addressed by him to the Royal Geographical Society:—*N. Y. Sun.*

"It is known by the name of Guevo Upas, or Poisoned Valley. Following a path which has been made for the purpose, the party shortly reached it with a couple of dogs and fowls, for the purpose of making experiments. On arriving at the top of the mountain, the party dismounted and scrambled up the side of the hill, at a distance of a mile, with the assistance of the branches and projecting roots. When at a few yards from the valley, a strong, nauseous, suffocating smell was experienced, but on reaching the margin, the inconvenience was no longer found. The valley is about half a mile in circumference, of an oval shape and about 30 feet deep.

The bottom of it appeared to be flat, without any vegetation, and a few large stones scattered here and there. Skeletons of human beings, tigers, bears, deer, and all sorts of birds and wild animals lay about in profusion. The ground on which they lay at the bottom of the valley appeared to be a hard sandy substance, and no vapor was perceived. The sides were covered with vegetation.

It was proposed to enter it, and each of the party having lit a cigar, managed to get within twenty feet of the bottom, where a sickening, nauseous smell was experienced without any difficulty of breathing. A dog was now fastened to the end of a bamboo, and thrust to the bottom of the valley, while some of the party, with their watches in their hands, observed the effect.

At the expiration of fourteen seconds, he fell off his legs, without moving or looking around, and continued alive only eighteen minutes. The other dog now left the company, and went to his companion. On reaching him, he was observed to stand quite motionless, and, at the end of ten seconds, fell down; he never moved his limbs after, and lived only seven minutes. A fowl was thrown in, and lived a minute and a quarter; and another, which was thrown in after, died in the course of a minute and a half.

A heavy shower of rain fell during the time that these experiments were going forward, which, from the interesting nature of the experiment, was quite disregarded. On the opposite side of the valley to that which was visited, lay a human skeleton. The head was resting on the right arm. The effect of the weather had bleached the bones as white as ivory. This was probably the remains of some wretched rebel hunted toward the valley, who had taken shelter there, unconscious of its character."

DEATH OF AN AGED PRINTER. Mr Henry Emmons, one of the oldest, if not the senior printer in Boston, died in this city on the 22d inst., at the advanced age of 88 years and five months. The deceased is known to the present generation as an agent for the sale of several annual publications. He was formerly quite active in religious matters, and is reported never to have tasted ardent spirits or used tobacco. For the last forty years he has not used tea or coffee, but has been a consistent cold water man.—*Transcript.*

THE FURTHEST WEST YET.—Within the last six months a city has sprung up on the bluff opposite Fort Riley, Kansas, which rejoices in the name of "Junction City." This is an appropriate name, as it is not only the point of Junction to which several eastern railroads and telegraph lines are tending, but it is also the point at which the Republican and Smokey Hill unite in forming the Kansas river. It is also the point of departure of the several government roads to New Mexico, Utah, California and Oregon; and lastly, from this city a line of stages has already been started to the new Pike's Peak gold diggins.

A VALUABLE DOG.—According to all accounts, they have a most wonderful dog at Chatham Four Corners, who deserves a wider fame than he at present enjoys. At a destructive fire there a few years ago, he was the first to arouse the citizens and give the alarm. At the burning of the Paper Mill last Tuesday morning, the same heroic mastiff entered the burning building where Mr. Gardner was asleep, and seizing him by the collar of his coat, dragged him to the street unharmed.

The Trinity (California) Journal, contains the following story:

"A year ago, last February the Rev. Mr. Brooks perished in the snow on Salmon mountain, and though diligent search was made, no trace of him could be found. He was traced round the head of Coffee creek, going parallel with the trail, but in evident bewilderment, and fresh snow at length obliterated his track. In October succeeding, the Rev. Messrs Reasoner and Simonds again went in search of his remains, but, ascending the mountain, were driven back by storms. A few days ago his bones, watch, a twenty dollar piece, and a package of tracts, were found near a house on the north side of the mountain, telling the sad story of the good man's death. He had perished almost in sight of shelter."

ANOTHER SUIT AGAINST THE SUFFOLK BANK. Wednesday a messenger from the Suffolk Bank visited the Newmarket Bank, in Newmarket, N. H., with $20,000 in bills of that institution and demanded the specie. The coin was paid promptly, but no sooner was it in the possession of the messenger, than $5000 of the amount was attached by the sheriff of Rockingham County, to satisfy a suit of the Newmarket Bank, against the Suffolk, for illegal and improper annoyance in drawing so large a sum in specie from the coffers of the first named bank. The courier from the Suffolk Bank returned to the city with $15,000 in hard money.

Looking out of his window one summer evening, Luther saw, on a tree at hand, a bird making his brief and easy dispositions for a night's rest. "Look," said he, "how that little fellow preaches faith to us all! He takes hold of his twig, tucks his head under his wing and goes to sleep, *leaving God to think for him.*"

When a stone was once thrown into the pulpit where John Murray was preaching, in Boston, he picked it up, and, holding it before his congregation, said, "this is a weighty argument, but neither rational nor convincing."

There is trouble among the Rhode Island military, and the Governor has revoked the commission of Brigadier General John Gould.

From New York:

New York, Oct. 2.

It is stated to-day on good authority, that the United States Government has selected Appleton's building in Broadway, for the site of the new post-office building.

In the Supreme Court to-day, Judge Davis sentenced James Rodgers to be hung on the 16th of November. Rodgers is said to be but 21 years of age. His crime was the unprovoked murder a year ago, in the 15th Avenue, of Mr John Swanston, while the latter was walking out with his wife.

Mr Charles Bunn, the passenger served from the Austria, was victimized to-day by the California bogus ticket sellers in New York.

The deaths by yellow fever in New Orleans on Friday were 66.

Fanny Temple and Prince trotted to-day in harness; mile heats, best two in three, over Lasier's course at Detroit, when Flora won the first two heats in 2.31½ and 2.34.

New York, Oct. 3.

A letter from Havana, in the Herald says—A number of secret agents of Santa Anna had arrived at that port from St Thomas, en route to Vera Cruz. They had plenty of gold, and left on the English mail steamer, after having had interviews with the son of the ex-dictator and some Spanish and Mexican officials. It was said the Spanish government would lay the submarine cable to Key West at its own expense.

From Washington.

Washington, Oct. 2.

Dr Billings arrived at New Orleans on Monday, bringing despatches from our Minister at Mexico, Mr Forsyth, to our government. Dr B's principal object is to purchase Minnie rifles for the liberal army, for which purpose he was well supplied with funds. He says the Americans are much thought of by the liberal party, and occupy high stations of trust. He is of the opinion that Sonora will be ceded to the United States, for a consideration.

On the 5th of September a force was preparing to march on Jalapa, Rechegary's headquarters.

Laying the Corner Stone of a new Light House on Minot's Ledge.

Boston, Oct. 3.

Yesterday, in reference to an announcement from Lieut Alexander, U. S Engineer, that the foundation of the new Light House on Minot's Ledge was ready for the corner stone, the city government, officers of the Grand Lodge of Free Masons, and numerous invited guests, proceeded to Cohasset for the purpose of formally consecrating the event with masonic ceremonies, &c; but the weather was too rough to visit the Ledge, and the exercises, which were of an interesting character, took place on shore. Capt. Alexander received the party with a brief statement concerning the work as far as progressed. Mayor Lincoln then made some remarks, which were followed by the usual masonic ceremonies on such occasions, Hon. John T. Heard officiating. Addresses followed by Edward Everett, Linus S. Comins, and others. The party did not return till a late hour Saturday evening.

The Mysterious Schooner.—It will be remembered, says the Boston Journal, that six or eight sailors who recently landed at Montauk Point from a small boat, proceeded to Bag Harbor, where one of them died. The Bag Harbor Courant gives the following in explanation of the mystery which surrounds the case:

"The clipper barque ——, which was built in New York last summer, was soon after sold to a well known Spanish house, of that city, fitted for the slave trade and sailed for Africa, having on board her complement of officers and crew, and two captains—one American captain and the other Spanish. They succeeded in obtaining their cargo and sailed for Cuba, where they were equally successful in landing them—507 in number. Here all hands were paid off, and leaving the American captain in Cuba, the barque again went to sea under the command of the Spanish captain. Arriving at Block Island, the night she landed on Montauk were allowed to leave in one of the vessel's boats, while the others were required to remain on board, in order to scuttle the barque. They scuttled her off Block Island, took to their boats and made for the Connecticut shore, and were picked up by a pilot boat and taken to New London. Their account of the ship wreck and suffering readily loosed them a free passage on whatever they wished to go. The above are all the authentic facts that we are allowed to lay before the public at present. The slavers are landed—the vessel sunk—the officers and crew at large—were and are reaping the one who now sleeps in our village cemetery, over whose mounding a marble slab has been erected bearing the following inscription:

"Dead Men tell no Tales."

California Steamers

Carrying the United States' Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, etc.

CAUTION TO THE PUBLIC.

On account of the numerous frauds and impositions on travelers, those bound to California are cautioned to buy Tickets at the only authorized Agencies of the United States Mail Line as below.

By order of the Post-master General, the United States Mail Steamers will hereafter be despatched from New York to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers without any extra expense. This is the only line giving entire Through tickets, guaranteeing no detention on the Isthmus.

Transit made in four hours entirely by daylight, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the transit of U. S. Pacific Mail Steamers will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a sure and short passage, with the greatest comfort and safety to health.

Tickets must be signed by one of the Company's Agents, as they will be recognized by the Agent at Panama, and tickets thus signed can be obtained of the only authorized Agent for the U. S. and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent, No. 16 Broad street, Boston.

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington under the Act of 1837,

76 State St., opposite Kilby St., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

"Boston, February 8, 1858.

"R. H. EDDY has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

R. H. EDDY.

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IT is not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when this water-proof this is remedied. By the application of this preparation, it remains soft and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the leather, will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence recommend it to the public as the best article in the market.

ROOM PAPERS.—78 Patterns, 4000 Rolls, cheap Room Papers, for sale by D. M. PATCH.

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—37 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$26 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time-Drafts—$22 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts. a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other; as the moisture of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 400 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

THE LIVER INVIGORATOR,

PREPARED BY DR. SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious attacks are cured, and, what is better prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents nightmare.

Only one dose taken at night loosens the bowels gently, and cures costiveness.

One dose taken after each meal will cure Dyspepsia.

One dose of two tea spoonfuls will always relieve Sick Headache.

Only one dose immediately relieves Cholic, while

One dose often repeated is a sure cure for Cholera Morbus, and a preventive of Cholera.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for Jaundice removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures Chronic Diarrhœa in its worst forms, while Summer and Bowel Complaints yield almost to the first dose.

A few bottles will cure Dropsy by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever, and all Fevers of a Bilious type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

Price One Dollar per Bottle.
